Subject: Playzones - Gallows Close Centre

Date: Thu, 25 Jul 2024 09:23:31 +0100

To: Jools Marley, Clerk to Council <clerk@newbyandscalby-tc.gov.uk>

Good afternoon Jools

I am sending this information over to you in the hope there may be some funding available from the Newby Parish to support Gallows Close Centre and the community to raise enough funds to invest in a fantastic opportunity for a new outdoor sports facility.

This will be a one time offer for a much needed refurbishment of the current MUGA (Multi Use Games area).

We have raised £10,000 for the first initial payment to get the ball rolling, we would then potentially need to raise around £55k.

We also have potential investors including Beyond Housing, Sanctuary Housing, PFCC, Barrowcliff Big Local, Barrowcliff Residents Association, Credit Union and also run some fundraising events ourselves.

The Multi Use Games Area (MUGA) is currently not fit for purpose which means we are unable to extend a sports programme for all ages and abilities. The aim is to offer additional activities to young people in an area of high deprivation, to engage and support them from committing crime and reduce antisocial behaviour in the community and to offer a variety of new sports activities to engage with girls, ladies and adults.

Please see the information below...

North Yorkshire Sport are working with North Yorkshire Council and the Football Foundation on the roll out of a new capital investment programme of small sided multi sport play areas called Playzones.

They are a relatively new concept with the first one opening next week in Derby.

Please take a look at this link to see just how playzones will look <https://footballfoundation.org.uk/playzones-programme>

The former Borough of Scarborough has been identified as a priority place and as such is being invited to put forward a portfolio of potential sites to either be upgraded to a Playzone, or to be a new build.

Who pays for this: The Scarborough portfolio of playzones will need to bring 25% of the costs (not each individual site) and we will be working with the sites to pool together the 25% funding package. 75% of the funding is from the Football Foundation.

How is the site managed and operated: This is something we will need to work through with each individual site and the Council Parks team as to the management of the sites.

Ongoing costs and access: Playzones are designed to have a combination of free/open access and time where it can be booked at a more commercial rate. There is some financial modelling that has shown a small amount of income will cover the costs and create a surplus and still leave time for free access.

Spec and technical side of things: This is all taken care of by the football foundation who deal with planning, contractors etc

We look forward to hearing from you.

Warm Regards

Founded by a private social enterprise as an important and accessible amenity for the local communities

Friends of Newby and Scalby Allotments are asked by Newby and Scalby Town council to assist in the management of the allotments. In particular we work alongside the Clerk to try and ensure that plots are well maintained and managed.

Many of those who have allotments on the site are elderly or face physical challenges and we have noticed that some are giving up plots because they can't commit sufficient time or physical effort to managing a full or half plot.

We are also aware that some, particularly younger tenants, or those with families or caring commitments, take on plots with the best of intentions but discover that running an allotment requires more time than they had anticipated.

Plot holders sometimes struggle on to try and avoid giving up plots which they value both in terms of gardening and social benefits. This can in turn lead to plots becoming run down before they are eventually given up, which makes them more difficult to let to a new tenant.

We would like to request that the Council, as our landlord, consider allowing some quarter plots to be let. We feel this would have two major benefits.

It would address the issues of age, infirmity or disability as outlined above.

It would enable newcomers to gardening to start small and work up to a half or full plot when they have confidence that they can manage it.

We would like to undertake an experiment in a limited number of cases to see if this proposal is practicable and would report back to Council in a year on how well the experiment has worked. We realise that this would entail some practical changes such as temporary renumbering of plots but feel this is manageable.
